

Recommendation Letter

To whom it may concern,

I am writing to highly recommend **Raed Al Masri**

as a highly motivated and skilled cybersecurity trainee. Who has successfully completed our comprehensive cybersecurity training program at Darrebni Company.

The trainee is a standout individual with a wealth of knowledge, practical experience, and a strong understanding of cybersecurity concepts and attacker's TTP (Tactics - Techniques - Procedures) analysis to help security teams detect and mitigate attacks by understanding the way threat actors operate.

They excelled in network security, web security, penetration testing, incident response, and vulnerability assessment. Their ability to apply this knowledge to real-world scenarios was particularly impressive, as evidenced by many projects and exercises that applied during the course.

What truly sets them apart is their specific strength related to cybersecurity, e.g., critical thinking, problem-solving skills, and analytical ability. Additionally, they are a valuable team player who thrives in collaborative environments.

They are a highly motivated individual with a strong work ethic. They are a quick learner who readily adapts to new technologies and constantly seeks to expand their knowledge base.

We are confident that the trainee possesses the skills and dedication necessary to excel in a cybersecurity role within your organization. I wholeheartedly recommend the trainee and am confident They will make a significant contribution to your team.

Please feel free to reach out to me at ceo@darrebni.net for further information.

Best regards.

Eng. Amr Droubi
Founder and CEO
